

Compuplast/Xaloy Short Courses
Event Schedule
April 29-30 & May 1-2, 2008

Due to the popularity of this event we have divided the participants in 2 groups and we will have 2 identical short courses that week. The first group will attend April 29 – 30 and the second group will attend May 1-2. Each registered participant will have been informed about which group they are in. If you are uncertain about this, please call Helen at +1 905 814 8923 or send an email to hp@compuplast.ca requesting your group number. Below is the tentative schedule that will be followed for both courses.
